In the contest over the mileage item between Reformer Durham and District Attorney Steins, the latter seems to have come out ahead, as Mr. Durham takes back tracks and says the item may be allowed after all. It would now be interesting for Comptroller Durham to explain becomes of his charge that Mr. Sterns had no legal right to this mileage item in his account, and consequently, in common with other District Attorneys, he would have to abide by the law.

Messrs. Edgerton, and Oberly, two of President Cleveland's Civil Service Reform Commissioners, have had such a rowover the spoils that the former gentleman seriously contemplates resigning. It seems that the position of messenger to the Civil Service Board had to be filled, and that both of these reformers had a candidate. Mr. Oberly was successful in getting in his man, and now Mr. Edgerton, who has been absent from his duties for about eight weeks, writes that 'his younger colleague is dictatorial and uses his office for political purposes. would like to know wherein our Boston contemporary has discovered any evidence that the President believes that a public offee is a public trust. Not in the Cabinet surely, for Pan-Electric Garland still remains at the head of the Department of Justice. Neither will it find any evidence of its alleged fact among the numerous appointees of the President, for they are to-day so active in political manipulation that even the New York World protests that it is time for Mr. Cleveland to do something besides talk if the proposes to make good his repeated declarations in behalf of reform. speech of Schator Sherman in opening the campaign at 2 ortsmouth, Ohio:

Hon. Benjamin Butterworth and Gen. Charles E. Brown have been nominated as the Republican candidates, in the Ohio First and Second Congressional Districts respectively.

Col. Fred Grant denies any indebtedness to the Saratoga undertakers' firm which threatens to sue the manager of the Mt. McGregor property for payment for services in embalming General Grant's body.

Senator Sherman's arraignment of the Administration has caused a flutter in the persuasion are trying to break its force, but up to date they have made little headway.

The Boston Globe devotes one whole page to booming Fresident Cleveland for 1888. In 1894 the Globe entertained a very funny in parallel columns.

Senator Sherman's arraignment of the Administration of Mr. Cleveland. Its past and present opinion of Mr. Cleveland. Its past and present opinion would look very funny in parallel columns.

The Boston Post closes and editorial on the Mussachusetts campaign with the remark: Mr. Andrew can be elected." It is that the American manufacturer now make nearly all such articles consumed in this country, and the duties collected are mainly from articles of superfluiny or lux-ury. There is not in his message of the protection of American industry, but this is called "a pretext for a pretextion of American industry, but this is called "a pretext for a pretextion of American industry, but this is called "a pretext for a pretective policy." Undoubtedly the great body of those who elected Mr. Cleveland are "free trader," may would if they could bring American labor as into a hard, close competition, with the cheapest alabor of Europe, and they will creep in that direction as first as public opinion and the necessities of revenue will permit. Honest men may differ about the effect of protective duties, but no honest man of a strikes cause a great deal of suffering among the laboring classes.

"TURN THE RASCALS OUT."

What has been said or done since he became President to justify a change of Administration? It was said he wou d'turn the rascals out. What iassals has he turned out? Who among the multitude of Federal officers remove, by him has he charged with defaleation, fraud or missonduct? In every case of removal we have endeavored to assentant the cause of removal, and the only cause was 'offensive partisanship.' The person removed was a Republican-too much to the pleasing to Democrats, and that was the cause for a change. It is a matter of just pride to Republicans that their officers and agents were proved to be honest, capable and efficient. Among the thousands removed the President was not able or willing to give to the Senate any cause for removal. There we've no rascals to turn out. But hel appointed rascals without number. More jud-pirely, convicts and defaulters were appointed by its predecessors in 20 years, so I repeat that the actual result; of his Administration thus far is to prove that the pretences, and that the only instead that his predecessors in the North in high office, for the teachings, sympathics and dogmas of the rebellion with its leaders in the South and sympathizers in the North in high office, for the teachings, example and principles of the Republican party and the Union cause.
